

## Reflex ‘Temp Tape’ - Court Marking Tape

### For temporary marking of sports hall floors

Available in the following colours\*/ sports:

<b>White</b>	<b>Badminton &amp; Short Tennis</b>
<b>Black</b>	<b>Basketball</b>
<b>Green or Blue</b>	<b>Volleyball</b>
<b>Yellow</b>	<b>Five-a-side</b>
<b>Red</b>	<b>Netball</b>
<b>Transparent</b>	<b>General Use</b>
<b>Orange</b>	<b>Handball</b>

\*Sport England recommended colours

All tapes are PVC and produced in 50mm wide x 33mm long rolls

Tested by Bona Ltd for line marking of Reflex Sports Floors.

Reflex sports marking tapes have a special ‘low tac’ adhesive which will not react with the floors lacquer coating, and enable tapes to be removed from the floor without peeling the lacquer coating away.

### # Recommended Installation Guidelines #

Tape must be installed over clean, dry surfaces

We would recommend the floor be thoroughly cleaned using Reflex Bona floor cleaner ensuring all greases, body fats and marks are removed prior to the tape installation

Room temperatures in the range 15 Degrees C – 27 Degrees C

*Reflex can provide approved line marking contractors upon request*

**For further information, or to order your supplies of Reflex court marking tape, please contact us on:  
0800 345 7085**

**Note:** Reflex Temp Tape has been tested by Bona Ltd over a 3 month period under laboratory conditions. The timber boards used were coated with Bona lacquer. At two week intervals the tape was removed using a slow upward pulling technique. The lacquer was then tested for adhesion. These tests showed that no lacquer damage was caused by the tape.

We cannot always ascertain site conditions or types of lacquer so whilst tests have shown the tape does not cause any damage; we cannot guarantee this for your flooring.

We therefore recommend that you do a patch test on the flooring that you intend to use the tape on for the timescale you wish to use it for.

Please do not hesitate to contact us if you require any further assistance.
