About Reflex Sports

Reflex Sports Ltd are a specialist company dedicated to the design, testing and supply of sports floors within the U.K.

With over 25 years of experience in the flooring industry, Reflex can provide you with guidance, expertise and support to ensure you get the floor you deserve.

Reflex offer a range of solutions that not only meet your aesthetic requirements but can promise to be of the highest quality and tested to the highest industry certifications.

In conjunction with expert manufacturers, Reflex bring you experience, durability, innovation, beauty and design.

Running, bouncing, spinning, twisting and turning is generally good news for your body. But it can also result in sprains and torn ligaments. Shoes play an important part in reducing the strain on knees, ankles and backs. But equally important is choosing the right floor – a floor with the right kind of resilience, yielding and resisting when it should.

Reflex sports floors are specially designed for this. A result of long term research, they combine excellent energy-absorbing qualities with durability and good looks. Reflex floors create an optimal surface for all types of sports.

Reflex Sports are dedicated to sourcing materials from manufacturers with strong environmental policies.

All of our suppliers have PEFC or FSC certification.

We firmly believe that we have a responsibility to provide a sustainable product range.

Our multi-layer sports flooring makes exceptional frugal use of limited natural resources in comparison to solid wood. The use of hardwood is limited to the top layer and recognises that the use of slower growing hardwood below the tongue and groove is a waste of a valuable and limited natural resource.

...even on a solid wood product it is impossible to sand down further than to the tongue and groove.

Reflex Sports are PEFC & FSC certified and can offer chain of custody on our timber products as required.

Guaranteed.... from start to finish

Reflex can provide a total solution for your project.

We design, test, supply and can install our range of sports flooring so we can guarantee you get the complete package. We pride ourselves in offering a total service; with our technical team providing support through the duration of your project.

We tailor our service based on each individual requirement so we can ensure you get the right floor for the right price.

- Cost Effective
- Low Maintenance
- Durable
- Low Finished Floor Height

Reflex PU is formulated in the U.K to provide an excellent point elastic surface for a variety of applications, Ideal for refurbishment due to its low floor height. Reflex PU is suitable for many projects including badminton, tennis, netball, 5-a-side football and basketball.

The prefabricated rubber mat is manufactured under factory conditions and this - together with the very resilient and durable self-levelling polyurethane wear layer and water-based top coat - means that Reflex PU has an extended useful life. Furthermore, the low maintenance demand includes regular sweeping and periodic wet cleaning only.

No polishing or buffing is required. Indeed, re-finishing with a fresh top coat and wear layer will only be necessary after several years of usage. The prefabricated rubber mat can therefore be reused indefinitely.

Special Properties

- Cushioned Surface
- Very resilient and durable
- Seamless surface
- Water-based polyurethane
- Increased chemical resistance
- Bright intense colours
- Easy to clean

Cross - Section of the Reflex PU System

All materials used in the formulation and installation of these products are environmentally friendly, utilising recycled rubber for the prefabricated mat together with solvent-free and water-based polyurethane technology.
